Inform the tax authority to contact your tax consultant for all future tax issues;
Close all bank accounts, and perhaps have a conversation with your bank about your move;
Check and, if necessary, terminate insurances (life insurance, house insurance, health insurance, pension insurance, liability insurance etc.). If you do choose to keep these, make sure to inform them of your change in residence and postal address;
Organise (private) health insurance – have PMG request quotes in advance.

Passport and Documents

Your personal ID or passport should be valid for at least another 6 months.
All driver licenses issued in any EU member state are valid throughout the EU.
If necessary, have certified English translations made of important documents. We can advise you regarding the necessity of this.

Travelling Abroad with Cash

If everything is done properly, you should be able to take everything with you - the sky is the limit. Let's have a look at this in detail:

The **Customs Regulation in the EU** says: you are allowed to take up to 9,999 Euros in cash or "the equivalent of this in other currency", into or out of an EU state, without declaring this amount. From 10,000 Euros upwards, the Customs Regulation says: "the authorities request that cash and equivalent currencies with a worth of 10,000 Euros or more be declared. Declarations can be made **orally**...". (As of: April 2017)

Health

Get one last check up from your dentist. Sometimes the necessary treatment may be cheaper abroad.
If you regularly take medication: take a 2 month supply with you. Also, get informed about comparable medication available in Cyprus.
Ask your doctor for your medical records and, if necessary, have translations made of important aspects.
